

CANTILEVER RACKING
Long goods storage. For Light, medium & heavy loads.

Cantilever racking systems are ideal solutions for storage of long, oversized goods or bulky items. Cantilever racking are made up of vertical columns, cantilever arms, bracings & can also be provided with shelves for storage of uneven items or when the goods vary in dimensions or preventing the articles from falling over. Cantilever racking can be manufactured for single or double-faced usage. The arms are adjustable easily to accommodate articles of varying heights. ‘Jay’ offers varied accessories depending on the specific requirements.

Construction System – The Cr-UBe500 Medium Duty Series:
‘Jay’ has developed a basic range of 2 cantilever racking systems to cover almost all types of requirements; the Cr-UBe500 Medium duty series & Cr1000 Heavy Duty series.

The Cr-UBe500 series is specifically designed for manual loading.

Construction System – Cr1000 Heavy Duty Series:
The Cr-1000 series is a similar system to the Cr-UBe500 series, but with larger beams & columns and with 75mm pitch. specifically designed for manual as well as mechanical loading.

'Jay' Cantilever Racking
