

MOBILE SHELVING-LONG SPAN SHELVES RACKS

for Light, Medium & Heavy loads
High Density shelving with individual access.

Mobile Shelving is a compact archive storage system comprising of shelving or lockers mounted on mobile bases which slide along rails.

This system optimizes available space, guaranteeing that archived material is kept in order, clean & safe. It can also be used to store other types of small articles, such as pharmaceutical products or spare parts. The 'Jay' technical department will assist in providing you with the best solution for your needs, thus creating a custom built system in all aspects for your product range. The 'Jay' J2 & J3 series shelving components will initially provide the basis for numerous bays configurations enabling to meet different requirements in terms of the product to be filed or stored, the weight and their classification.

'Jay' Mobile Shelving-Long Span Shelve Racks		
Applications	<ul style="list-style-type: none">• Engineering Stores• Hanging garments• components	<ul style="list-style-type: none">• Small parts warehouse• loose goods• Spare parts
