Automated Warehouse

Automated solutions for managing & optimizing the storage, preparation & dispatch of goods. Automated Storage Systems refers to any type of storage equipments in the warehouse that are automated to stack items high up.

1. Automated Storage Retrieval Systems (AS/RS) for Pallets
    - Automated Storage Retrieval Systems (AS/RS) for Pallets - Semi Automated
    - Automated Storage Retrieval Systems (AS/RS) for Pallets - Fully Automated
2. Stacker Cranes for Pallets
3. Automated Storage & Retrieval Systems (AS/RS) with Radio Shuttles
4. Stacker Cranes for Pallet Shuttles
5. Automated Storage Retrieval Systems (AS/RS) for Special Loads
    - Automated Systems (AS/RS) for Special Loads - Semi Automated
    - Automated Systems (AS/RS) for Special Loads - Fully Automated
6. Mini - Load AS/RS
7. Stacker Cranes for Bins & Totes
8. Management Software System (WMS)
9. Multilevel Pallet Radio Shuttle Systems with Lifts
10. Multilevel Shuttle Systems for Bins & Totes
11. Pick to Light Systems
12. Put to Light Systems
13. Radio Shuttles
